How does one library compare its performance with another?

In the thirteenth annual compilation of How do you Compare? 1983 public libraries are able to identify the level of support they are receiving from their municipalities relative to other communities.

The information in the publication is arranged alphabetically under name of municipality by groupings of libraries according to size of municipality.

The Ministry of Municipal Affairs and Housing provided the data on population, households, local tax revenue and equalized taxable assessment.

Suggestions and comments may be sent to:

**1983 RELATIVE WEALTH OF COMMUNITY AND
RELATIVE LOCAL SUPPORT FOR LIBRARY BOARD**

- o This table is arranged by size of population served by the library board with county libraries listed at the end of the operating library boards section. A separate section on non-operating library boards follows the operating library board section.
- o The figures reported for population, local tax revenues (including payments in lieu) and equalized taxable assessment were supplied by the Ministry of Municipal Affairs and Housing. The figure for local support for the library was taken from the Annual Survey of public Libraries 1983.
- o **A Word of Caution:** Generally a municipality that shows a high library support as a percentage of tax revenue figures may be assumed to put a high priority on library service. However, a lower percentage of local tax revenue going to the library does not always mean a municipality is giving less support to the library than its neighbouring municipality; the neighbouring municipality may be offering fewer municipal services and have, as a result, a lower tax bill. Similarly, the equalized taxable assessment per capita does not always show the true wealth of a community particularly in the vacation areas of the province. When using the table to compare one library with another be sure the two municipalities being compared are offering the same municipal services and are similar types of communities.

**INDICES FOR COMPARISON: RELATIVE WEALTH
AND RELATIVE LOCAL SUPPORT**

* Waterloo and Wentworth are regional municipalities. Regional municipalities have a much more comprehensive list of functions than counties and hence collect greater revenues. This accounts for the "library support as a percent of tax revenue" figures for Waterloo and Wentworth being significantly lower than for the other county libraries. Local tax revenue for county libraries and county cooperatives is revenue collected for upper tier purposes only. Equalized Taxable Assessment and Local Tax Revenue are totals for municipalities belonging to the county library.
